

PRESS RELEASE FOR IMMEDIATE DISTRIBUTION

Infosim[®] announces release of StableNet[®] 8.1

April 2017

Wuerzburg/Austin/Singapore, April 20th, 2017 – Infosim[®], the technology leader in automated Service Fulfillment and Service Assurance solutions, today announced the release of version 8.1 of its award-winning software suite StableNet[®] for Telco and Enterprise customers.

StableNet[®] 8.1 provides a significant number of powerful new features, including:

- Tagging & Grouping – Unlimited, dynamic structure of all StableNet[®] elements
- Unified Service Visualization – Cross-vendor, cross-layer, cross-service
- Improved support for VMware and ESX (including Version 6.5)
- Improved Weather Maps
- Improved Dashboards and Widgets
- Extended functions of the REST API

StableNet[®] version 8.1 is available for purchase and download now. Customers with current maintenance contracts may upgrade free of charge as per the terms and conditions of their contract.

Supporting Quotes:

Marius Heuler, CTO Infosim[®]

“The new tagging & grouping concept we introduce with StableNet[®] 8.1 is indeed a small revolution to the way that data can be handled for management and orchestration.”

ABOUT INFOSIM[®]

Infosim[®] is a leading manufacturer of automated Service Fulfillment and Service Assurance solutions for Telcos, ISPs, Managed Service Providers and Corporations. Since 2003, Infosim[®] has been developing and providing StableNet[®] to Telco and Enterprise customers. Infosim[®] is privately held with offices in Germany (Wuerzburg – HQ, Muenster), USA (Austin), and Singapore.

At Infosim[®], we take pride in the engineering excellence of our high-quality and high-performance products. All products are available for a trial period and professional services for proof of concept (POC) can be provided on request.

ABOUT STABLENET[®]

Infosim[®] develops and markets StableNet[®], the leading unified software solution for Fault, Performance, and Configuration Management. StableNet[®] is available in two versions: Telco (for Telecom Operators and ISPs) and Enterprise (for IT and Managed Service Providers). StableNet[®] is a single platform unified solution designed to address today's many operational and technical challenges of managing distributed and mission-critical IT infrastructures.

Many leading organizations and Network Service Providers have selected StableNet[®] due to its enriched features and reduction in OPEX & CAPEX. Many of our customers are well-known global brands spanning all market sectors. References are available on request.
