

# PRESS RELEASE FOR IMMEDIATE DISTRIBUTION

## Infosim<sup>®</sup> announces release of StableNet<sup>®</sup> 8.2

December 2017

**Wuerzburg/Austin/Singapore, December 7<sup>th</sup>, 2017** – Infosim<sup>®</sup>, the technology leader in automated Service Fulfillment and Service Assurance solutions, today announced the release of version 8.2 of its award-winning software suite StableNet<sup>®</sup> for Telco and Enterprise customers.

StableNet<sup>®</sup> 8.2 provides a significant number of powerful new features and improvements, including:

- Flow Analysis – New Agent Module and Flow Query Analyzer
- Improved Service Analyzer – Physical Service View
- Template-based SNMP Live Data Analysis
- New Chart Types allowing extended Reporting
- Improvements to Discovery, Automation, Visualization, and Usability

StableNet<sup>®</sup> 8.2 is available for purchase and download now. Customers with current maintenance contracts may upgrade free of charge as per the terms and conditions of their contract.

### Supporting Quotes:

#### **Marius Heuler, CTO Infosim<sup>®</sup>**

*“This new release is the next step towards a powerful Workflow and Resource Management in StableNet<sup>®</sup> and another milestone in our IoT strategy.”*

## **ABOUT INFOSIM<sup>®</sup>**

Infosim<sup>®</sup> is a leading manufacturer of automated Service Fulfillment and Service Assurance solutions for Telcos, System Integrators, Managed Service Providers and Enterprise Corporations. Since 2003, Infosim<sup>®</sup> has been developing and providing StableNet<sup>®</sup> to Telco and Enterprise customers. Infosim<sup>®</sup> is privately held with offices in Germany (Wuerzburg – HQ, Muenster), USA (Austin), and Singapore.

At Infosim<sup>®</sup>, we take pride in the engineering excellence of our high-quality and high-performance products. All products are available for a trial period and professional services for proof of concept (POC) can be provided on request.

## **ABOUT STABLENET<sup>®</sup>**

Infosim<sup>®</sup> develops and markets StableNet<sup>®</sup>, the leading unified software solution for Fault, Performance, Configuration and Services Management. StableNet<sup>®</sup> is available in two versions: Telco (for Telecom Operators and ISPs) and Enterprise (for IT and Managed Service Providers). StableNet<sup>®</sup> is a single platform unified solution designed to address today's many operational and technical challenges of managing distributed and mission-critical IT infrastructures.

Many leading organizations and Network Service Providers have selected StableNet<sup>®</sup> due to its enriched features and reduction in OPEX & CAPEX. Many of our customers are well-known global brands spanning all market sectors. References are available on request.
