

PRESS RELEASE

FOR IMMEDIATE DISTRIBUTION

StableNet® Enterprise provided by Infosim® rated as a 2018 Value Leader in the EMA Radar™ for Enterprise Hybrid Infrastructure Management Systems (EHIM) in Q1/2018

May 2018

Wuerzburg/Austin/Singapore, May 16, 2018 – Infosim®, a leader in integrated service assurance and network management platforms is pleased to announce that Enterprise Management Associates (EMA™) has published their most recent study on Enterprise Hybrid Infrastructure Management Systems (EHIM) Q1/2018 and has rated StableNet® Enterprise 8.1 as a Value Leader among 13 industry leaders' competing products. The EMA™ study is based on interviews with users and network administrators at current deployment sites and reflects the actual experience and satisfaction with the products researched.

StableNet® Enterprise was awarded strong scores in architecture, infrastructure discovery, scalability, fault isolation, and troubleshooting. EMA™ noted that StableNet® Enterprise has evolved to serve hybrid operation use cases and offers solid integration with other third-party IT management systems. StableNet® has also added functionality to embrace the addition of new technologies to the network including SDN, NFV, and IoT. "EMA™ has spoken to multiple customers who were able to monitor the availability and performance of non-standard Internet of Things (IoT) devices after Infosim® applied custom scripts to its external monitoring probes". StableNet® also ranked in the top of the study for its complex event correlation and alarm suppression.

Dr. Stefan Koehler, CEO for Infosim® comments:

"We are once again proud to have achieved such an excellent rating from the EMA™ within the competitive landscape of the markets we serve. This marks the second time we have been ranked a Value Leader in the EMA™ study, and we continue to invest in StableNet® to expand its capabilities and offer even more comprehensive features to our enterprise and telco customers."

ABOUT EMA™

Founded in 1996, Enterprise Management Associates (EMA™) is a leading industry analyst and consulting firm that specializes in going “beyond the surface” to provide deep insight across the full spectrum of IT and data management technologies. We deliver research, analysis, and consulting services to two key client groups: Enterprise IT Professionals and IT and Data Management Vendors.

ABOUT INFOSIM®

Infosim® is a leading manufacturer of automated Service Fulfillment and Service Assurance solutions for Telcos, ISPs, Managed Service Providers and Corporations. Since 2003, Infosim® has been developing and providing StableNet® to Telco and Enterprise customers. Infosim® is privately held with offices in Germany (Wuerzburg HQ, Muenster), USA (Austin) and Singapore.

At Infosim® we take pride in the engineering excellence of our high quality and high performance products. All products are available for a trial period and professional services for proof of concept (POC) can be provided on request.

ABOUT STABLENET®

Infosim® develops and markets StableNet®, the leading unified software solution for Fault, Performance, and Configuration Management. StableNet® is available in two versions: Telco (for Telecom Operators and ISPs) and Enterprise (for IT and Managed Service Providers). StableNet® is a single platform unified solution designed to address today’s many operational and technical challenges of managing distributed and mission-critical IT infrastructures.

Many leading organizations and Network Service Providers have selected StableNet® due to its enriched features and reduction in OPEX & CAPEX. Many of our customers are well-known global brands spanning all market sectors. References are available on request.
