The Infosim GmbH & Co. KG is an international software vendor and value-added reseller headquartered in Würzburg, Germany. With international subsidiaries in Singapore and Austin, TX.

Our main three areas of operation are:
- Unified Network & Services Management with our award-winning Product StableNet®
- Business software based on Microsoft Dynamics 365 Business Central
- Individual software developments

Strong growth in our StableNet® division necessitates the expansion of our team in the HQ office in Würzburg, Germany.

YOUR AREA OF RESPONSIBILITY
- Work with the development team to maintain and develop our application StableNet®
- Implementing, troubleshooting, and further development of StableNet®
- Enhance existing features and take part in designing and implementing new functionalities
- Implementation of exciting customer projects in Java

YOUR SKILLS
- Master/Diploma degree in computer science, or comparable credentials
- Experience in Java and SQL database (e.g. Oracle, MySQL)
- Appropriate network knowledge (IPv6, TCP/IP, SNMP, MPLS) is of advantage
- Fluent written and verbal communication skills in English
- Significant team- and communication skills as well as enthusiasm about working in agile development teams

OUR BENEFITS
- Friendly and informal work environment with relaxed command structures
- Exciting international projects
- Many opportunities for further education and training
- A broad spectrum of social activities, such as team events or tickets for the Handball Bundesliga
- Workplaces with panorama view over Würzburg and the Marienberg fortress
- High level of research and innovation
- Flexible working hours
- Ideal location on Hubland North with direct access to public transport and shopping area nearby
