JUNIOR JAVA DEVELOPER (M/F/D)

Do you want to influence the constantly growing software industry?
Develop with us the future of network management

The Infosim GmbH & Co. KG is an international software vendor and value-added reseller headquartered in Würzburg, Germany. With international subsidiaries in Singapore and Austin, TX.

Our main three areas of operation are:

- Unified Network & Services Management with our award-winning Product StableNet®

- Business software based on Microsoft Dynamics 365 Business Central

- Individual software developments

Strong growth in our StableNet® division necessitates the expansion of our team in the HQ office in Würzburg, Germany.

YOUR AREA OF RESPONSIBILITY

- Work with the development team to maintain and develop our application StableNet®

- Implementing, troubleshooting, and further development of StableNet®

- Enhance existing features and take part in designing and implementing new functionalities

- Implementation of exciting customer projects in Java

YOUR SKILLS

- Master/Diploma degree in computer science, or comparable credentials

- Experience in Java and SQL database (e.g. Oracle, MySQL)

- Appropriate network knowledge (IPv6, TCP/IP, SNMP, MPLS) is of advantage

- Fluent written and verbal communication skills in English

- Significant team- and communication skills as well as enthusiasm about working in agile development teams

OUR BENEFITS

- Friendly and informal work environment with relaxed command structures

- Exciting international projects

- Many opportunities for further education and training

- A broad spectrum of social activities, such as team events or tickets for the Handball Bundesliga

- Workplaces with panorama view over Würzburg and the Marienberg fortress

- High level of research and innovation

- Flexible working hours

- Ideal location on Hubland North with direct access to public transport and shopping area nearby
