The Infosim GmbH & Co. KG is an international software vendor and value-added reseller headquartered in Würzburg, Germany. With international subsidiaries in Singapore and Austin, TX.

Our main three areas of operation are:
- Unified Network & Services Management with our award-winning Product StableNet®
- Business software based on Microsoft Dynamics 365 Business Central
- Individual software developments

Strong growth in our StableNet® division necessitates the expansion of our team in the HQ office in Würzburg, Germany.

Do you want to influence the constantly growing software industry?
Develop with us the future of network management

YOUR AREA OF RESPONSIBILITY
- Be a part of national and international research projects
- Support the development team with the implementation of new and existing functionalities
- Take part in the design and implementation of new interfaces for external systems.
- Support us representing Infosim® and StableNet® at international conferences and exhibitions as well as scientific events.
- Supervise students (e.g., master thesis, master project)

YOUR SKILLS
- Master/Diploma degree in computer science, HCI, electrical engineering, or similar qualifications
- Programming experience, preferably in Java, and experience with SQL databases (e.g., Oracle or MariaDB)
- Interested in research – from the first project plan to the final implementation
- Independent worker, flexible and with initiative
- Ability to critically consider and evaluate solutions
- Fluent written and verbal communication skills in both English and German

ADDITIONAL ADVANTAGES
- First experience with working in research projects and supervising students
- Experience with common web-technologies (e.g., XML, REST, SOAP, JSON)
- Experience with other programming languages (e.g., Python, JavaScript, C#, C++)
- Experience with network technologies (e.g., SDN, NFV, TCP/IP, SNMP) or with IoT (e.g., MQTT, OPC UA)
- Other language skills

OUR BENEFITS
- Friendly and informal work environment with relaxed command structures
- Exciting international projects
- Many opportunities for further education and training
- A broad spectrum of social activities, such as team events or tickets for the Handball Bundesliga
- Workplaces with panorama view over Würzburg and the Marienberg fortress
- High level of research and innovation
- Flexible working hours
- Ideal location on Hubland North with direct access to public transport and shopping area nearby
